

Test Review

Classifying some living things

You will have to cut out some living things, and classify them on the page. You will have to put them into groups based on their characteristics and then put them into more specific sub-groups.

Oct 9-9:27 AM

Living or Nonliving?

Review the 6 characteristics of life:

- grow and develop
- obtain and use food
- respond to stimuli
- are composed of cells
- are adapted to their environment
- reproduce
